**Rick Arvielo** the Co-Founder and CEO of New American Funding. Rick's journey in the mortgage industry began when he began working with an independent mortgage broker in 2001. Rick quickly increased the small broker shop's business and gained experience with the intricacies of mortgage operations. Identifying many areas in need of improvement, Rick began developing systems to remove inefficiencies in the mortgage process by automating repetitive, time-consuming functions. He soon founded New American Funding, LLC, a business created to provide optimization services to mortgage lenders. He later saw the opportunity to strike out on his own, and in 2003, Rick and his wife Patty established their own mortgage company, New American Funding.

The company began as a 40-employee call center focused solely on refinances. In 2011, Rick introduced purchase transactions to the company's operations, and in 2012, New American Funding opened their first branch. The company's retail division has since exploded and now has 170 branches nationwide. In less than 20 years, Rick has transformed New American Funding from those modest beginnings into one of the top 20 mortgage companies in the U.S., one with more than 3,460 employees and a servicing portfolio of more than 244,700 loans for \$64.5 billion.
